### Upcycling Denim Shirts into a Dress

My husband recently brought me a bag of his denim shirts to give away. I noticed a few of these had logos from marina's we had visited on our vacations and hated to get rid of them.

I thought of maybe making a denim quilt, but that is not realistic for my life right now 😊

Then it occurred to me to make a jean dress! Yes, now this I will get some use out of.

**Supplies:** 2 denim shirts
